

**University of California San Francisco
Ernest Gallo Clinic and Research Center**

**SUBJECTS NEEDED FOR ALCOHOL
RESEARCH STUDY**

Are you a heavy drinker?

If so, we would like to invite you to participate in a research study designed to examine the effects of alcohol on the brain.

To be eligible, you must:

- **Be between 21 – 40 years old**
- **Consume between 14-20 alcoholic drinks per week (if you are male) and between 10-16 drinks per week (if you are female).**
- **Have no history of serious neurological problems**
- **Not currently be taking any psychoactive drugs**
- **Pass a brief telephone screening**

Study involves three visits for a total of 9 hours.

As a participant, you will be paid \$215 total for the 3 visits (\$40 for the screening visit, \$50 for a blood draw, \$50 for the MRI session, and \$75 for the PET session).

You will also receive a \$50 bonus upon completion of all 3 visits.
